THIS YEAR WILL BE THRIFT YEAR

An interesting movement will be set on foot this month throughout the length and breadth of this country. It is a nation-wide campaign to promote greater habits of thrift, economy and conservatism among the people of the United States. The purpose of this campaign is to prepare this country to successfully cope with any industrial damages that may possibly be done as a result of the great European conflict now waging; to show every individual in every community how he can better himself financially by co-operating with the plans offered and grasping the opportunities extended.

This movement has been inaugurated by the Savings Bank Section of the American Bankers' Association and will be supported by them and their different committees, working through individual banks who are members of the association. The movement should not be viewed by the public in the wrong light. The plans of the campaign were not formulated with any selfish motives in mind. It is far from being a scheme fathered by banks to secure increased savings deposits. The very enormity of the proposition would make an assertion of this kind foolish. If the banks do reap a benefit, after bearing the expenses of the campaign, it will be because the individuals of every community where this work is carried on will have benefited to a far greater extent.

In over six hundred cities educational Thrift campaigns will be carried on simultaneously. Lecturers will be sent out; motion picture exhibits will be given; school savings banks will be started; and everything possible will be done to show why it is necessary as well as desirable for people to save in all practical ways. Right here in our city a campaign of this nature is being conducted by one of the banks behind the thrift movement. The McDonald State Bank is offering everyone in this community a practical and easy method of becoming more prosperous by accumulating small sums weekly in the Thrift Savings Club. Any amount can be provided for, in almost any length of time, for any purpose, and membership cards in these Clubs will be issued free of charge any day during banking hours.

There is no reason why the people of North Platte should not take the lead and make a showing along the lines of Thrift that we can point to with a great deal of pride.

MOGENSEN WILL ERECT TWO NEW BUILDINGS

Julius Mogensen who lost his Fourth ward livery barn by fire several weeks ago, last Tuesday purchased the Mrs. Shea lot west of the livery barn site and will erect thereon a new barn. While the lot is 66x132 feet, the building, which is now in the course of construction, will be 66x80, and the rear fifty feet will be enclosed and used as a feed lot. Originally it was Mr. Mogensen's plan to erect the barn on the site of the one which burned, but he concluded that this corner lot, 53x132, would look better and prove a better investment if occupied by a business building. He will therefore in the near future erect a brick building thereon, containing two store rooms each 20x60 facing on Locust street and in the rear a room about 50x60 which will be used as a garage. While the entrance to the garage will be on Eighth street, there will be a runway in the north side of the building so that cars can enter from either Locust or Eighth.

Mr. Mogensen decided on these plans Monday night, by ten o'clock Tuesday he had purchased the Mrs. Shea lot, and before noon men were at work getting the building on the lot in readiness to be moved off. The new barn will be frame covered with corrugated iron.

Plan Banquet for Sheriffs

The directors of the Chamber of Commerce held a meeting Tuesday afternoon and appropriated \$150 for the corn show which has been held this week in connection with the poultry show. Arrangements were also made for giving a banquet to the sheriffs who will be in attendance at the state convention to be held in this city next Monday and Tuesday and to provide other entertainment for them. Plans for exhibiting the Lincoln Highway films on January 17th, were also discussed.

3,000 Cars of Horses.

Clinton Hoover, of Harlan, Ia., and the Lincoln Horse and Mule Co. have secured a contract from the French government for 50,000 horses and 25,000 mules. The animals will be assembled at Lincoln and then shipped to Galveston for export. These animals will fill 3,000 cars.
